leading the discussion on CSR topics among all of the PPs and invited guests from different fields of work :

- Short presentation of Plastkom (in Slovenian language + interpreter)
- What are the views of Slovenian politics on this field, f.e. in Italy the schools are compulsory to have CSR topics in the curriculum?
- What actions are the national and regional representatives of the field of education taking to engage their schools, teachers and students for CSR topics?
- What sort of efforts or projects are your companies following to contribute to better social responsibility (from recycling and disposing your waste, to producing environmentally friendly energy, to employing people from the area of the company, to forwarding knowledge about being socially responsible to others ...etc.) What is your company doing?
- Do your companies receive any support for this – from the municipalities, from EU projects?
- Does anyone have any information about this – what are the funds, resources, from which companies could get some financial support?
- What is our future in social responsibility?
